

ADVANCED SITUATIONAL AWARENESS TRAINING (ASAT)

AUG 28, 2018 (TUESDAY)

0800 TO 1300

THOUSAND OAKS, CA

***Taught by Former USMC Combat Hunter Program Instructor & retired
CIA Operations Officer***

Derived from the US Military's ASAT training this 4-hour course on advanced situational awareness will teach attendees about the human sensory system (five senses and the brain), the six domains of human behavior (heuristics, biometrics, kinesics, proxemics, geographics and atmospherics), principles of GSA (human pace, sign recognition), enhanced observation (why we see things, why we don't see things, signatures and cues), how to establish a baseline (an initial set of critical observations to confirm the norm of an area), critical thinking (problem-solving, anomaly-detection), decision-making (legal/moral/ethical, observe-orient-decide-act loop, ASA algorithm), how to think like the enemy and how to employ this knowledge and experience to be "left-of-bang."

Topics:

Introduction to Behavior Analysis

- Why we create patterns and habits
- Exploiting patterns and habits
- Left of Bang Mindset
- B + A = D

Speeding up your Decision Making

- Heuristic Decision-Making Process
- OODA Loop
- The Clusters

Phycological Responses to Stress

- The body's response to stimulus
- You can mask but you cannot stop them
- Observing for violence before it happens

Kinesics (non-verbal's)

- The power of non-verbals
- Bypassing the thinking brain
- Kinesic slips and Deception

TARGET AUDIENCE: InfraGard Members, Public Safety (Law/Health/Fire), Terrorism Liaison Officers (TLO's), Infrastructure Liaison Officers (ILO's), Private Sector Security, area stakeholders, all Critical Infrastructure Sectors.

SUBJECT MATTER EXPERTS: Certified USMC Combat Hunter program instructor & retired CIA Operations Officer.
