

OPEN SOURCE INTELLIGENCE (OSINT) EXPLOITATION COURSE

THURSDAY NOV 8, 2018 . TIME: 0900 - 1300
LOCATION: CARPINTERIA, CA

Taught by Former USMC Ground Intelligence Officer, Targeting Officer, & Scout Sniper Platoon Commander

This course identifies and demonstrates numerous free online resources that can aid internet researchers in solving both technical and non-technical investigations. Participants will be shown how to "dig" into the internet for personal information about any target. While popular social media sites are covered in detail (including techniques that legally access some "hidden" content), the presentation goes much deeper into the vast resources available online for researching information. Additionally, instructions for identifying local events in real time will be presented in great detail. This course focuses on the most popular social networks and proper retrieval of located information. These sources can also be used to conduct thorough background checks on potential employees. All resources can be applied to domestic and international investigations.

Topics:

- 1). Understanding Search Engines, Browsers, URLs and Operators (Fundamental cornerstone to OSINT)
- 2). OSINT Techniques - Social Media Investigations
- 3). OSINT Techniques - Digital Web Investigations
- 4). OSINT Practical Applications throughout the course

TARGET AUDIENCE: InfraGard Members, Public Safety (Law/Health/Fire), Terrorism Liaison Officers (TLO's), Infrastructure Liaison Officers (ILO's), Private Sector Security, Area Stakeholders, all Critical Infrastructure Sectors, Intelligence Analysts, Intelligence Officers and Private Investigators.

SUBJECT MATTER EXPERT: A native of Los Angeles, SME is an Open Source Intelligence (OSINT) and investigations expert assisting numerous Federal and local agencies as well as private organizations with OSINT collection, analysis and training. SME is a former Marine Corps Ground Intelligence Officer, Targeting Officer, and Scout Sniper Platoon Commander, and transitioned into the private sector offering his intelligence expertise to support global executive protection operations for current and former US Government officials and Fortune 100 and 500 companies.

REGISTRATION: Please register at:
