

PHYSICAL SECURITY VULNERABILITY ASSESSMENT 101

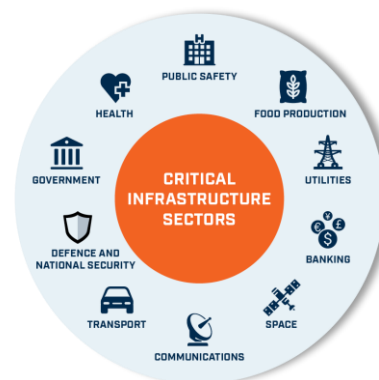

AUG 13TH, 2019 . TUESDAY . TIME: 0900 - 1300
LOCATION: TEMECULA, CA

*****PLEASE ARRIVE AT 0815 FOR REGISTRATION, COFFEE AND LIGHT BREAKFAST*****

A must for Houses of Worship, Schools, Small, Medium and Large Businesses, Hotels, Casinos, Large Entertainment Venues and any critical infrastructure sector. This presentation is designed to provide security professionals with the full knowledge on how to compile a comprehensive physical security assessment, utilizing available templates, tools, and resources, start to finish. This course will walk you through Best Practices, Data Collection, Recording, and Analysis. Most importantly, how to write a clear professional assessment that is presentable and understandable by the client.

Topics:

- 1) Basic Definitions & Objectives
- 2) Difference Between Security Assessment vs Risk Assessment
- 3) Threat Reference
- 4) Assessment Planning
- 5) Vulnerability Identification
- 6) Mitigation Strategies,
- 7) Assessment Execution & Stakeholder Interviewing

TARGET AUDIENCE: InfraGard Members, Public Safety (Law/Health/Fire), Terrorism Liaison Officers (TLO's), Infrastructure Liaison Officers (ILO's), Private Sector Security, Area Stakeholders, all Critical Infrastructure Sectors, Intelligence Analysts, Intelligence Officers and Private Investigators.

SUBJECT MATTER EXPERT: SME is a security and intelligence expert with over 30 years of worldwide experience. His unique background covers long term deployments in the Middle East, Southeast Asia and North America and covert government operations all over the globe. His professional experience combines years of management roles in physical security in areas such as diplomatic protection, aviation, maritime, dignitary, and corporate security. In addition, close to two decades of Counter-terrorism as a special agent, intimately engaging with the world's most dangerous adversaries. Having gained firsthand knowledge of how the enemy thinks and work he brings to us a comprehensive actionable angle on physical security vulnerability assessments.

REGISTRATION: Please register at: <https://www.infragardlosangeles.org/infragard-events.shtml>

Training is limited to cleared FBI InfraGard members, Sworn Law Enforcement Personnel, US Military Personnel and invited guests only.
